HELMET MODEL NUMBER STATEMENT

Milwaukee Tool head protection products are marked on the shell with a “Series” number. The series number represents the same shell construction, and the “Model” number represents the additional options of that product, including suspension style and color. For example, a Front Brim Hard Hat, Type 1, Class E, would have the series number of 50-73-1134 on the shell; however, this would differ than the model number ordered, as the white color version of this product has a model number of 48-73-1100. The table below of our model numbers and the corresponding shell marking number has been added for reference.
